Education

Atılım University

Bachelor of Computer Engineering
GPA 2.88

2020 – Present

Technical Skills

- Swift
- SwiftUI
- iOS Development
- C
- C++
- Ionic
- HTML
- CSS
- Mobile Development
- JavaScript
- TypeScript
- Git
- Agile-Scrum

Professional Experience

Patika Robotics

Intern – Software Department

Istanbul/Hybrid
July 2022 – August 2022

- Developed a website using NodeJS
- Designed a database for the website with MongoDB
- Implemented database structure onto the website
- Wrote a module to assign/edit unmanned robot duties

Akgün Teknoloji

Long-Term Intern – R&D

Ankara/On-Site
July 2023 - Present

- Developed a full functional mobile app from scratch for mental health professionals and patients to use.
- Designed a database and implemented it using Google Firebase
- Took part in the development of company's Intensive Care Unit System Management project.
- Wrote the source-code for over 30+ screens of the project
- Developed a dynamic form with Angular in order to use in the project. Implementation of the dynamic form reduced the development time of the forms by 40%
- Created an online documentation for the project using Docsify
- Designed forms to be used in the project with Jasper Reports
